

# Kenya Children's News

April 2026

## Thank you for a third of a million hot meals

You did it! 🎉

Through 'The Big Give' Christmas Campaign you raised over £40,000!

Thank you so much for your generosity and for helping us reach our goal. This means we can provide hot daily meals to 1,500 destitute children for an entire year!!

From all of us at KCC:

“ASANTE SANA!”

(thank you very much in Kiswahili)).

Because of you, 2026 begins with more children safe, nourished, and learning.

The work does not stop here. Your monthly support keeps this hope alive every day.

♥ £10/month feeds two children daily. Become a monthly sponsor today and help us feed even more vulnerable children: [Donate here](#)

## Run for Kenya's children 2026

Kenya has given the world its greatest marathon runners. In 2026, we're inviting runners around the world to give something back.

“Run for Kenya's Children” unites three iconic marathons: Berlin, Chicago, and Dublin with one urgent mission: supporting all the vulnerable children who rely on Kenya Children Centres for daily meals, education, shelter, and care.

This is about celebrating Kenya's legendary running heritage while transforming the lives of Kenya's most vulnerable children across slums and rural communities.

Whether you are an experienced marathon runner or taking on your first 26.2 miles, you'll run with purpose and be part of a global team changing futures with every step.

Three cities. One cause. Countless lives changed.

👉 Applications are now open to run with Team KCC for Chicago and Dublin: <https://buff.ly/8IKAgGX>.

### **A new life for abandoned babies**

You are helping to provide this abandoned baby with formula and diapers while she is cared for at our baby home. She is looking happy and healthy now despite her tragic start in life.

### **Safe and a positive future**

Grace loves listening to music and playing with her friends. She is happy, confident, safe, and supported at our Kujali children's home because of your help. Thank you for empowering children like Grace to reach their full potential.

### **Caring for neurodiversity**

Every school day we look after 85 children with high support needs autism at our SEN school. These schools are scarce in Kenya and many children are unable to receive specialist care. Our wonderful teachers and carers support the children with individual care and tailored learning. They play games and are encouraged to socialise. They develop skills to care for themselves and receive a nutritious hot meal at lunchtime.

### **Reaching for the stars**

Meet three incredible young people who have just started their journey at Chuka University, as a result of KCC's university scholarships.

They've gone from vulnerable childhoods... to safety, education, and now university students with bright futures ahead.

When you give a child stability, love, and learning, you're not just helping them survive, you're helping them thrive.

### Helping disadvantaged families

This small boy is a member of an impoverished family that we support with our outreach care. With your help, he's now confident, healthy, and excited about his future.

We support dozens of families with food, school fees, books and uniforms, as well as grants and counselling.

### KCC hits the bullseye

David Munyua is Kenya's first-ever qualifier for the world professional darts championship at London's Alexandra Palace last December, which attracts 100,000 spectators. He recently visited our Kujali Centre and joined the children and team. David is partnering with Kujali and plans to launch a brand new darts club for the children and families in our local communities. Outside of darts, Munyua works as a veterinarian in Nairobi.

**These stories are only possible with your support...**
